## Professional Summary :

Creative and detail-oriented **Frontend Developer** with experience in building responsive and dynamic web applications and Single Page Applications (SPA) using **React.js**, **Next.js**, **TypeScript**, and modern UI frameworks like **Tailwind CSS**. Skilled in responsive web design, component-based architecture, RESTful API integration, performance optimization, and SEO optimization.

Brings a unique mix of frontend engineering and data skills to develop performant, user-friendly applications with clean code and scalable architecture.

## Technical Skills

### Languages & Frameworks:

- HTML5, CSS3, JavaScript (ES6+), TypeScript
- React.js, Next.js, Redux, Tailwind CSS

### Backend & APIs:

- Node.js, FastAPI, Rest API

### UI/UX & Tools:

- Responsive Design, Figma, Git , Github
- Component-based Architecture, SEO Optimization

### Testing & DevOps:

- React Testing Library, Vercel,

### Others :

- Python, SQL

## Experience

### NTT Data— Frontend Developer

Feb 2022 – Oct 2024

Although this was a data-centric role, highlight frontend-related tasks or skills

- Collaborated with cross-functional teams to develop internal web tools for data visualization and monitoring.
- Contributed to building internal dashboards and admin panels using **React.js and Tailwind CSS**.
- Designed reusable UI components and implemented dynamic interfaces with API integrations.
- Improved performance of internal reporting tools using React optimization techniques.
- Gained strong understanding of end-user needs, which shaped UI/UX decisions. Collaborated with cross-functional teams to develop internal web tools for data visualization and monitoring.
- Participated in sprint planning and UI review sessions, aligning development with user needs.
- Worked closely with design teams to ensure a consistent and responsive UI/UX.
- Developed role-based access views using conditional rendering and session state.

### Capstone Internship – Frontend Contribution Focus

Dec 2021 – Mar 2022

- Built interactive **Power BI dashboards** and web views for reporting interfaces.
- Used **HTML, CSS, JavaScript** to create simple frontend pages for reporting demos.
- Gained experience collaborating in agile sprints with a focus on UI deliverables.
- Built interactive **Power BI dashboards** and embedded web views for reporting interfaces.
- Created static web pages using **HTML, CSS, and JavaScript** to present KPIs and metrics.
- Prototyped UI layouts based on stakeholder input and iterated based on feedback.

- Gained hands-on experience in **agile sprint cycles**, contributing to frontend development deliverables.
- Practiced version control with Git and collaborated with peers via GitHub.
- Improved data presentation by applying frontend best practices for readability and responsiveness.

## Education

**Bachelor Of Technology** – Indian Institute of Information Technology (IIIT)

Mar 2018 - Mar 2022
